

COMPANY PROFILE & SERVICES BROCHURE

CDEF Buildcon Pvt. Ltd.

FROM CONCEPT TO COMPLETION

CDEF Buildcon is a construction and interior design company serving Delhi NCR and Uttar Pradesh. We bring architecture, civil construction and interior execution together under one accountable team, one written agreement and one project lead – so clients are not passed between separate vendors for a single project.

What We Do

Residential Construction

Independent houses, villas, duplexes, floor additions, farmhouses and bungalows – from foundation to finishing.

Commercial Construction

Offices, retail showrooms, malls, warehouses, industrial sheds and hospitality projects, phased to limit disruption.

Interior Design

Complete interior execution – layout planning, false ceiling, electrical, modular furniture and finishing, for homes and offices alike.

Why Clients Choose CDEF

- **Written scope, not verbal promises** – every project starts with a documented scope of work and payment schedule.
- **One contract, one team** – architecture, civil work and interiors run under a single agreement.
- **Site-first estimates** – we visit before we quote, so numbers are grounded in your actual plot.
- **Regular, honest updates** – realistic status reports, including delays, instead of silence.
- **Material transparency** – brands and specifications are agreed upfront and documented at handover.
- **Post-handover support** – a documented snag list and warranty window follow every completed project.

How a Project Typically Starts

Every engagement begins with a free, no-obligation initial consultation and site visit. We then share a written proposal, followed by a signed project agreement with a milestone-based payment schedule tied to actual construction progress – never a single lump-sum payment upfront.
